- c. If no structural alterations, are made, any nonconforming use of a structure and land in combination may be changed to another nonconforming use of the same or a more restricted classification provided that the Board of Zoning Appeals, either by general rule or by making findings in the specific case, shall find that the proposed use is equally appropriate or more appropriate to the district than the existing nonconforming use. In permitting such change, the Board of Zoning Appeals may require conditions and safeguards in accord with the purpose and intent of this Resolution. Where a nonconforming use of a structure, land , or structured and land in combination is hereafter changed to a more conforming use, it shall not thereafter be changed to a less conforming use.

When damaged by less than sixty (60) percent of its reproduction value, a nonconforming use may be repaired or reconstructed, and used as before the time of damage, provided such repairs or reconstruction are completed within one (1) year of the date of such damage.

6. Repairs and Maintenance

On any building devoted in whole or in part to any nonconforming use, work may be done in any period of twelve (12) consecutive months on ordinary repairs, or on repair or replacement of nonbearing walls, fixtures, wiring or plumbing to an extent not exceeding fifty (50) percent of the assessed value of the building, provided that the cubic content of the building as it existed at the time of passage or amendment of this Resolution shall not be increased.

Nothing in this Resolution shall be deemed to prevent the strengthening or restoring to a safe condition of any building or part thereof declared to be unsafe by any official charged with protecting the public safety, upon order of such official.

7. Uses Under Exception Provisions Not Nonconforming Uses

Any use for which a special exception is permitted as provided in this Resolution shall not be deemed a nonconforming use, but shall, without further action, be deemed a conforming use in such district.

8. Change of Tenancy or Ownership

There may be a change of tenancy, ownership, or management of any existing nonconforming uses of land, of structures or of structures and land in combination.

9. For those uses not specifically mentioned, the requirements for off-street parking facilities shall be in accord with a use which the Zoning Commission considers is similar in type.
10. When units or measurements determining the number of required parking spaces result in the requirement of a fractional space, any fraction up to and including one-half (½) shall be disregarded and fractions over one-half (½) shall require one (1) parking space.

11. For the purpose of computing the number of parking spaces required, the definition of **USABLE FLOOR AREA** in **ARTICLE II - DEFINITIONS, SECTION 2** shall govern.

Whenever the off-street parking requirements in SECTION 5 above require the building of an off-street parking facility, such off-street parking lots shall be laid out, constructed and maintained in accordance with the following standards and regulations:

1. No parking lot shall be constructed unless and until a permit therefor is issued by the Zoning Inspector. Applications for a permit shall be submitted to the Zoning Commission in such form as may be determined by the Zoning Inspector and shall be accompanied with two (2) sets of site plans for the development and construction of the parking lot showing that the provisions of this SECTION will be fully complied with.

Section 7. OFF-STREET LOADING AND UNLOADING:

On the same premises with every building, structure, or part thereof, involving the receipt or distribution of vehicles or materials or merchandise, there shall be provided and maintained on the lot, adequate space for standing, loading and unloading in order to avoid undue interference with public use of dedicated rights-of-way. Such space shall be provided as follows:

Section 8. USES NOT OTHERWISE INCLUDED WITHIN A SPECIFIC USE DISTRICT:

Because the uses hereinafter referred to possess unique characteristics making it impractical to include them in a specific use district classification, they may be permitted by the Township Trustees under the conditions specified, and after public hearing, and after a recommendation has been received from the Zoning Commission. In every case, the uses hereinafter referred to shall be specifically prohibited from any Residential Districts, unless otherwise , specified.

These uses require special consideration since they service an area larger than the Township or require sizable land areas, creating problems of control with reference to abutting use districts. Reference to those uses falling specifically within the intent of this SECTION is as follows:

1. Outdoor Theaters

Because outdoor theaters possess the unique characteristics of being used only after darkness and since they develop a concentration of vehicular traffic in terms of ingress and egress from their parking area, they shall be permitted in I-1 and I-2 Districts only. Because mobile home parks possess site design and density characteristics similar to multiple-family development, they are permitted herein as transitional uses between multiple-family and business or light industrial areas. Mobile home parks shall be permitted in the RM-1 Multiple-Family Residential Districts, in the B-2 General Business Districts, and in the I-1 Restricted Industrial Districts, subject to the following locational requirements:

(6) Setback Requirements - No mobile home shall be located closer than forty (40) feet from any building within the mobile home community or from any property line bounding the mobile home community. Mobile homes shall be situated at least fifteen (15) feet from the front lot line of any mobile home space.

b. Building Height Regulations

The maximum height of any structures in a mobile home park shall be one (1) story or fourteen (14) feet.

Section 9. PLANT MATERIALS:

Whenever in this Resolution a greenbelt or planting is required, it shall be planted within six (6) months from the date of issuance of a Certificate of Occupancy and shall thereafter be reasonably maintained with permanent plant materials to provide a screen to abutting properties. Suitable materials equal in characteristics to the plant materials listed with the spacing as required shall be provided.

Plant Material Spacing

1. Plant materials shall not be placed closer than four (4) feet from the fence line or property

line.

2. Where plant materials are placed in two or more rows, plantings shall be staggered in rows.
3. Evergreen trees shall be planted not more than thirty (30) feet on centers, and shall not be less than five (5) feet in height.

The Board shall, however, respect all yards and setbacks in modifying height requirements.
 - d. All directional signs required for the purpose of orientation, when established by the County, State or Federal government, shall be permitted in all use districts.
 - e. Accessory signs shall be permitted in any use district.
 - f. Non-accessory signs shall be permitted only in B-2, I-1 and I-2 Industrial Districts; except that non-accessory signs pertaining to real estate development located within the Township and designed to promote the sale of lots or homes within a subdivision located within the Township may be permitted on a temporary basis in any use

district, but shall not be located upon subdivided land unless such land is part of the subdivision being advertised for sale and shall be subject to the requirements and conditions of all applicable codes and resolutions of the Township, approved by the Zoning Inspector and a temporary permit issued.

- g. Signs used for advertising land or buildings for rent, lease and/or for sale shall be permitted when located on the land or building intended to be rented, leased and/or sold.
